Tobago and Barbados have joined together to promote the direct Condor flights from Germany for the 2025/2026 winter season — a move expected to secure early bookings and boost tourist arrivals to both islands.

The Tobago Tourism Agency Ltd (TTAL) and the Barbados Tourism Marketing Inc. (BTMI) hosted a joint three-city roadshow in Germany from June 10 to 12. The tour stopped in Berlin, Munich, and Frankfurt.

The goal was to promote both destinations and encourage early bookings for the weekly Condor flight, which will once again serve Tobago and Barbados during the winter travel period.

“This is a major move for Tobago,” said TTAL marketing officer Perl Henry. “We’re showing the world what makes us truly beyond ordinary.”

Over 200 German travelagents, tour operators and media professionals attended the roadshow. TTAL showcased Tobago’s eco-adventures, calm beaches and cultural experiences.

Local hoteliers also joined the trip, including Tropikist Beach and Hotel Resort, Bacolet Beach Club, Hadco Experiences, and Blue Waters Inn. They offered direct insights into Tobago’s accommodation and activities.

The event also featured a live cooking session by Chef Arthur Patrick, who served dishes like curried crab and dumplings and callaloo.

“It gave guests a real taste of Tobago,” Henry said.

TTAL says the Condor flight, during the winter, is a key step in strengthening Tobago’s presence in the European market and building stronger ties with regional partners.
